

Rynoh Bank Integration Services

Featuring:

Banking Integration Services

Effortless Integration for Streamlined Workflows

The Rynoh Banking Integration enables users to seamlessly and securely manage wire transfers through a network of trusted U.S. banks.

Rynoh Banking streamlines the process of managing incoming and outgoing wire transactions with ease and precision. The platform enables users to instantly allocate incoming wires to the correct ledger while also allowing the initiation of wire transactions directly within Rynoh. Once internal approvals are secured, these requests are sent safely to participating banks for processing.

With Rynoh Bank Integration, users can efficiently search incoming wires using various criteria, such as trust account, received date, amount, status, federal reference number, or ledger ID. From there, they can take immediate action, including approving or rejecting transactions.

Rynoh's advanced security features provide robust control over wire approvals. Specific users can be designated as "approvers" for outgoing wires, with customizable approval limits to ensure secure and compliant processing.

Rynoh seamlessly integrates with a wide range of leading national banks [see below].

Partnering With 1,000+ Banks & Counting!

Tailored Banking Solutions for Title Companies

Financial Value: Benefit from customized pricing to optimize your costs

Operational Value: Streamlined banking with comprehensive treasury management solutions offering innovative technology options to manage your escrow accounts and mitigate fraud

Service Value: Our dedicated team delivers outstanding results, working together to provide our clients with a premier-level service
