

Rynoh Software Upgrade V5.0

Unified payments. Agentic AI. A more connected ecosystem.

Version 5.0 moves Rynoh **beyond reconciliation and compliance into active money movement** and intelligent, in-platform guidance.

This release lays the foundation for **Unified Payments**, introduces **RynohIQ** as Rynoh's first agentic AI assistant, and extends **Rynoh Build** integrations deeper into construction finance.

Seven updates in this release

Unified Money Movement

Disburse ACH payments directly from Rynoh, with any bank. **No separate bank login.**

RynohIQ

Rynoh's first agentic AI assistant. **Answers, how-tos, and action support** inside the platform.

Funding Modules

Updated workflow and bank adaptors for **more reliable, faster disbursement processing.**

Rynoh Build & Integrations

Extended ECL Software (CMIS) integration, plus a **new Sage integration for Positive Pay.**

RynohEscheat Updates

Select up to 500 transactions at a time, edit payee addresses, clearer Due Diligence file names.

RynohRecon Batch Reporting

Queue common Recon reports **across multiple agencies and accounts** in a single batch.

Features & Security

Ongoing improvements to **infrastructure, access controls, and compliance safeguards.**
